

Thank you for participating in the CQ WW DX Contest. We hope you had fun on the air!

The CQ WW Contest Committee encourages you to send in your contest log. It helps us with the log checking.

If you did not use a contest logging software such as N1MM, Win-Test, Dxlog.net, WriteLog, etc., you most likely logged your contact either using:

- a) Your daily logging software
- b) Some other way of storing the information including but not limited to: text editor, MS Excel, MS Access, pencil and paper, etc.

If you used your daily logging software then you can benefit from using the ADIF to Cabrillo conversion tool available at: <https://www.cqww.com/adif/>

If you logged on paper then you can benefit from the CAB FORMS available at: <http://www.b4h.net/cabforms/>

What follows are guidelines for you to follow either process and be able to submit your log for the CQ WW DX Contests. With slight variations, you can use the same procedures to send your logs for any of the contest sponsored by CQ Magazine.

Once again, thank you so much for your participation, and we look forward to seeing you on the bands next contest!

73,  
The CQ WW DX Contest Committee

## ADIF TO CABRILLO CONVERTER

<https://www.cqww.com/adif/>

Prerequisites: You have exported the contacts you made during the contest weekend into an ADIF format file.

If your logging software does not allow you to export by date range, you can open the exported ADIF file using a text editor and remove all contacts made outside the contest.

- 1) Navigate to <https://www.cqww.com/adif/>
- 2) Enter the callsign you used during the contest as shown below.
- 3) Click on the "Choose File" button
