

# CQ's World Wide DX Contest

In keeping pace with the times, the CQ World Wide DX Contest for 1952 includes the new 21-mc band. Remember there is now contest activity in the five principle DX bands.

In general the rules are identical to those employed within the past two years. No major changes are anticipated in the log sheets. However, please note that contest logs will ONLY be available from the CQ DX Committee, c/o W6QD, 1140 Crenshaw Blvd., Los Angeles 19, Calif.

Completed logs must also be sent to the DX Committee address to insure prompt handling. Logs sent to the CQ Editorial office may be seriously delayed.

(Due to the changeover in the Editorship of CQ the World-Wide Contest has for the past few years borne the brunt of considerable criticism. It is felt, however, that this contest will run very smoothly due to the very capable management by the DX Committee. It is anticipated that preliminary and claimed scores will be printed in the February and March issues of CQ.)

## 1. Contest Period:

PHONE SECTIONS: 0200 GMT October 25 to 0200 GMT October 27.

C.W. SECTIONS: 0200 GMT November 1 to 0200 GMT November 3.

(See time chart for local times and dates.)

## 2. Bands:

The contest activity will be in the 3.5, 7, 14, 21, and 27/28 mc. amateur bands.

## 3. Competition

will be divided into four sections as follows:

- (1) One-operator phone section
- (2) Multiple-operator phone section
- (3) One-operator c.w. section
- (4) Multiple-operator c.w. section

Stations in both phone sections may contact each other, and stations in both c.w. sections may contact each other, but no contacts between phone and c.w. stations will be allowed.

## 4. Equipment:

There will be no limit to the number of transmitters and receivers allowed, and competitors may use the maximum transmitter power permitted under the terms of their licenses.

## 5. Serial Numbers:

C.W. stations will exchange serial numbers consisting of five numerals, the first three being the RST report, and the last two being their own zone number. Stations in

Zones 1 through 9 will prefix their zone number with zero (01, 02, 03, etc.) Phone stations will exchange serial numbers consisting of four numerals. The first two being the readability and strength report, and the last two being their own zone number. Phone stations in Zones 1 through 9 will prefix their zone number with a zero (01, 02, 03, etc.).

## 6. Contacts:

Contacts between amateur stations on different continents shall count 3 points; contacts between amateur stations on the same continent, but not in the same country, shall count 1 point; contacts between stations in the same country, for the purpose of obtaining zone and/or country multipliers, shall be permitted, but no points will be allowed for these contacts. More than one contact between stations on each band will not be permitted.

## 7. Multipliers:

Two types of multipliers will be used: (1) a multiplier of 1 for each zone contacted on each band, (2) a multiplier of 1 for each country worked on each band.

## 8. Awards:

1st, 2nd, and 3rd place certificates will be awarded for each of the four Sections as follows:

A. To the highest scoring stations on each SINGLE BAND in the following areas:

- (a) Each call area of the U.S.A.

This is a sample contest log showing the method of entry and the totals. Contacts for each band are to be kept on separate sheets. This will make scoring faster and insures your correct total being applied for the proper band. Note: In the "Name of Country" column it is only necessary to list that country when the QSO counts as a multiplier.

(b) Each licensing area of Canada and Australia

(c) All other countries

B. To the stations having the highest combined total on ALL BANDS (or more than one band) in the following areas:

(a) Each call area of the U.S.A.

(b) Each licensing area of Canada and Australia

(c) All other countries

Certificates will also be awarded to each operator of each winning station in the multiple-operator sections.

9. **Scoring:** The contest score for each single band is the sum of the zone and country multipliers of each band, multiplied by the contact points of that band. The total all band score is the sum of the zone and country multipliers of all bands, multiplied by the total of contact points on all bands.

A. Everyone who sends in a log for a single band is eligible for a single band award only.

B. Those who submit logs for two or more bands will be eligible for the all band award, as well as the single band award.

To check your own zone number and continent for scoring purposes, refer to our country list form.

#### 10. Zones and Continents:

as defined in CQ and the CQ DX Handbook, as well as on the W.A.Z. maps, will be recognized, and for continental boundaries, the same as used for W.A.C. will be recognized. Should any question arise as to the positive location of any station, the official definitions will be final. Copies of the country list and contest logs

are available from the Los Angeles address listed below, upon receipt of a stamped, self-addressed envelope, or in the case of overseas stations, unattached postage stamps.

All logs must be postmarked no later than December 15, 1952. Send logs direct to:

Herb Becker, W6QD,  
 DX Contest Committee,  
 1140 Crenshaw Blvd.  
 Los Angeles 19, Calif.

#### Operating Suggestions:

Attention: Foreign Amateurs! It is recommended that you give the call letters of the station you are working at the end of a transmission, instead of just "BK," as this would prevent much QRM of stations piling on and calling you.

We suggest that overseas phone operators indicate which end of the band they are tuning, or which portions of the phone band (American or foreign) they intend to tune. On 28 mc, where the band is 1700-kc wide, it is extremely important that overseas phone stations specify the approximate frequency they intend to tune. C.W. stations, likewise, could greatly assist by indicating where they intend to tune. We think if the above principle is used by all, it will result in far less QRM, as well as fewer useless calls.

Foreign amateurs, remember scores are based on the greatest number of different countries and zones as well as stations worked. Do not concentrate on working only U. S. stations, this is a world-wide competition!
