

Results of the 1960 CQ World-Wide DX C.W. Contest

By Frank Anzalone, W1WY

Chairman, CQ Contest Committee

THANKS to the response from overseas stations we are happy to report a record breaking number of logs, 1000 and 1 to be exact, from 107 different countries. This an increase of over 160 entries as compared to last year, and 9 additional countries. This in spite of the fact that returns from this country were considerably lower in the mid-west. However this was more than made up by the usual activity in Europe plus a tremendous effort by the boys over in Japan and the radio clubs of the USSR. For the latter it paid off, two of the Trophies going to the land of the Sputnik.

It should be no surprise to see Vladimir Semenov, UA9DN at the top of the pack. He is no newcomer to our contest and his all out effort almost equalled last year's all time high score made by Maj. Glenn Luse, CN8JX. Congratulations Vlad, the Larry LeKashman, W9IOP Trophy is yours.

Once again Josef Plzak, 7G1A last year's Trophy winner was in the runner-up position. Josef also broke a million, mainly because of his record 1,497 contacts.

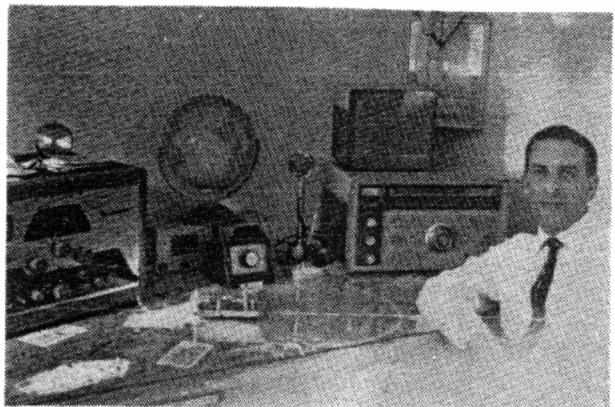

At first glance we thought the two year lay-off had given Katashi Nose, KH6IJ the necessary energy to push him to the top but a few corrections in his arithmetic showed it was only an illusion. "Nosey" had to settle for third.

Not far behind in the 4th spot is A. E. Dowdeswell, ST2AR, a call that merits watching in future contests.

A couple of more Africans, VQ4DT and ZD2JKO are in the fifth and sixth spot respectively. Both Henning Overgaard and Michael Dransfield placed in the Top Ten in the Phone contest, with 4DT winning the Trophy.

This year's 4X4 representative is Hanan H. Hirsch, 4X4MB, who placed seventh.

And over in the Ukraine, UB5FJ and UB5WF were at it again, with Anatoly once more showing his heels to Vladimir.

T. D'Angelo Drummond, PY4OD—Second world high on 14 mc.

The only US entry to make the magic group is James H. Ahlgren, W4YHD, who usually goes in for single band competition.

Say, how about that boy Ricardo Sierra Jr., CX2CO. He went and did it again! Another Trophy, this one donated by John Ryan, W7KVU, for making the highest score on a single band. This one also on 14 mc, matching the one he won in the Phone contest. Ricky's 370,139 points and 1,032 contacts is a new record for a single band. Man, that's really knocking 'em off.

Mention must also be made of Talma D'Angelo Drummond, PY4OD with the second highest score, also on 14 mc.

As a matter of fact, practically all the high single-band scores were made on 20, and all continents were well represented.

In this country, Vic Clark, W4KFC, (who else) was the leader and only single band station to work over 100 countries. While Alan Emerald K6EIV was the only one to work all 40 Zones.

Next in popularity was 21 mc but the activity was somewhat reduced on this band. European openings only lasted a few hours and after that you really had to dig for a few contacts.

Gunter Heinzen, DL6EN is the top man and Al Stobbe, W2WZ is still the big gun on this side of the pond. Yours truly took a crack at this band but found the competition a bit tough. Hi!

Some of the fellows were out to prove that 10 was still alive and they proved their point. A look at the scores will show the top group all within shouting distance of each other but the scores of course are much lower than previous years. Pickings are growing slimmer and you really have to move fast as the band openings don't last long.

If you had a beam or a full gallon it was possible to run up a good score on 40. Bob Martinez, K2DGT had both and again is top man on the Totem pole. Bob was working Europeans while the sun was still high on the horizon. And he worked JA1FL and JA1YL the long way around at 4:30 in the afternoon, most unusual on 7 mc from the East coast.

Missing however was W3BVN's consistent 40 meter signal, but Jake Schott, W8FGX, is still putting out a potent signal in the mid-west and Haywood Perry, W4DHZ, also did a fine job which his 2 element mini-beam.

The Europeans made good use of 40 locally and ran up good totals on that band. As did the West coast boys with their pipe line to Japan.

Once again 80 was strictly a European band with Wes Wysocki, SP2DX an old hand at contests, leading the pack by a narrow margin. Over here, VE1ZZ, VE3AGX and W9PNE were the only ones to show any kind of a score.

As for 160 we have come to the conclusion that

n band with ontests, lead- e, VE1ZZ, ones to show

clusion that

the Top Band does not open up this early in the season. However some of the multiplier seekers used it for what it was worth.

Over in the Multi-Operator, Single Transmitter division, which is increasing with popularity, especially among the club stations in some of the European countries, the entries were double those of last year. One of the more active areas was the Ukraine and a couple of operators of the Stalino Radio Club, Alfred Barkov and Leo Yailenko put UB5KAB up at the top to win the Tony Suse, W3AOH Trophy for their club. That makes two for the boys of the USSR.

Improving their score and position over last year was LZ1KBA, headed by Dimitter Petrov and two other operators of the Sofia Radio Club, Stefan and Spas. The whole station was loaded on a truck and moved to a quiet mountain location and in spite of adverse weather and inferior antennas, the boys took the second spot. Wait 'til next year.

A surprise 3rd was a West Coast entry, W6GHM/6, who did so well as a single in the Phone contest. Evidently Stew Fason moved the rig to another location and got Pete Wolf, W6FUF to give him a hand.

Warren Mallory, W7PGS — Runner-up for all band honors. That's a full gallon he's keying.

Another club group, 4 operators from the Baku Radio Club took the 4th spot with UD6KAB, while Tubby and Jeff Vale at VQ5NQ, proved that it can be done from "Down Under."

The boys over at Hot Ziggity ONE American Boy, found conditions rough and finished out of the money.

The "Big Guns", Multi-Operator, Multi-Transmitter stations, were practically the same group as in last year's brawl. However the order of finish is changed around a bit and this year Tony Suse and his gang at W3AOH lead the pack by a narrow margin to win the Buzz Reeves, K2GL Trophy. It was only by virtue of a bigger multiplier that they were able to nose out a new group from The Potomac Valley Radio Club. The gang at W3MSK really gave W3AOH a run for their Trophy.

The crew at UB5KBB, Power House of the Ukraine. Front Row: UT5CC, UB5LN, UB5LK, UB5KCD. Back row: UB5CI, Chief Op.; UB5DP, UB5LV and UB5LM.

The gang at W3MSK — Front row: W3MSK himself, W3JTC, W6HOH/3. Back row: W3MCG, W3PZW, W3FYS.

Again in 3rd place was UB5KBB of the Kharkov Radio Club. The boys would have had a much higher score but they got a bit careless and duplicated too many contacts.

Hardi Ludwig and his crew at DJ3JZ, last year's Trophy winner, found the loss on the higher bands too great and had to settle for the 4th spot. Better luck next year Hardi.

It seems the whole membership of the East Bohemian Radio Club was pounding brass at OK1KKS. They did manage to beat out W6KW for the 5th spot. Roger Mace and the boys could not overcome their locational west coast handicap.

The Potomac Valley Radio Club finally made it and won the CQ Plaque. However it was only made possible by the addition of a new "Big Gun" W3MSK, that was the clincher. This should make Lenny Chertok, Vic Clark and the rest very happy.

They were closely pressed by the German DX Team, last year's winner. We breathed a sigh of relief when the scores were tabulated and the GDXT fell short a few thousand points. Their secretary would have been on the spot had their score been higher. Since he did not send up a list of their participating members and their scores, we would have had no other alternative but to disqualify their score. We insist that clubs who are in contention for the Plaque observe this rule.

The North Jersey bunch made their usual fine team effort but lacked the big clincher.

We know that Southern California can do much better but they just can't seem to get rolling the past few years.

DJ3JZ I. to r. DL9CI at key, DJ1BZ, DL1CR, DL3AO, DJ3JZ himself, DJ1BP and DJ4LI.

Des Vahl, ZS7M—A rare one that confined his operation to 14 mc.

The Northeastern DX Association made a good showing for their first real effort. They certainly have the membership to be a top contender.

A surprise was the score turned in by the Uruguay DX Club, a new organization with limited membership.

By plan and coincidence, four DXpeditions showed up at choice spots. FL9 from French Somaliland, HKØHCA from San Andres, LX3AH from Luxembourg and ZS6IF/9 from Bechaunaland.

You will note we omitted the power column in the listing of the results. This had to be done to overcome a printing problem that has been plaguing us. Since it has no bearing on the final score that item was the most expendable.

The usual generous distribution of certificates will soon be in the mail. Sometimes I think we are a little too generous, especially in large areas like Canada, Australia and, for that matter certain areas in this country. The returns as compared to the known activity is disappointing to say the least. What's the answer?

Well, that's about it for this one. Was that a sigh of relief? Emphatically yes, chorus Andy Malashuk W1GYE, Mac McIntire W2BO and Ben Lazarus W2JB. Andy is going back to rebuilding his final, Mac is planning a western trip and Ben can go back to dreaming about that vacation up in the Adirondacks. Me? I'm starting to plan for the next one, after a short vacation to Nassau, that is.

73 for now, Frank, W1WY

2M transistor converter

- The converter that makes all tube type converters in mobile service obsolete!
- Details in May CQ ad
- Coming soon — 6 meter converter

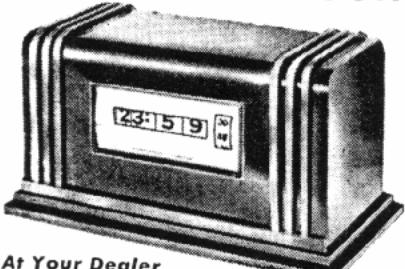

HAMBOARDS

P. O. BOX 13158 PINECASTLE, FLORIDA

"TIME AT A GLANCE" G.M.T. 24-HOUR NUMERAL CLOCK

#100-24H $\frac{1}{4}$
\$15 Plus
Applicable Taxes

Walnut or ebony plastic case.
H 4", W 7 $\frac{3}{4}$ ", D 4". Wt. 3 lbs.
110V 60 cy. AC.
Guaranteed 1 year.

The Saskatchewan Amateur Radio League welcomes all visiting radio amateurs and their families to Saskatchewan the land of wheat and holiday fun. If mobiling, the net frequency is 3780 and net meets at 1830 daily, but call in any time! 1961 Hamfest is June 30, July 1 and 2 at the well known Prince Albert National Park. If you are planning to visit our fair country let us know at the SARL, Box 801, Saskatoon, Saskatchewan, Canada ... drive carefully and keep your fingers out of the HV ...

Dynamotor brushes for DM-35 and DM-37. 50¢ per pair post paid. Bill Jones, 129 Davis St., Eufaula, Alabama.

HQ-110 Receiver, matching clock and speaker, perfect condition. \$165.00. Harvey-Wells TBS-50D transmitter, with power supply, good condition, \$35.00. K2EFC 94 Division Avenue, Belleville 9, New Jersey.

FOR SALE: HANDBOOK 4-250A Kilowatt Amplifier complete with tubes for A.M., C.W. and S.S.B. AB1 or AB2 with many extras. Built-in regulated bias supply, screen modulation choke for A.M. and 2.5KV voltmeter to measure plate voltage. Completely debugged and de-TV-ed. Jennings UCS 10KV vacuum variable 10-300 mmfd alone cost \$105. Total cost of parts \$337.70. Will sell F.O.B. Belvidere for \$225. Larry Kleber, K9LKA, Belvidere, Illinois.

SX101 Mark III, just like new, matching speaker, headphones, express collect original carton \$225.00. Instructograph with complete tapes \$25.00. Vaughan Moore, West Point, Virginia.

RTTY 455 polar relay like new \$2.95 PP. Relay socket 75¢ Teletype chadless tape splicer, new, \$3.00 PP, K9CNG, Vandalia, Illinois.

ATTENTION: Knight T-50 transmitter and Knight R-100 w/s-meter and speaker. First \$90.00 takes both. Will ship. K8TOB/VE3, 1 Seneca Crescent, Brantford Ontario, Canada.

SELL: HQ-170 w/clock \$235.00. DX-40, VF-1, Johnson low pass, novice xtals (5), Dow coax relay and coax, all \$65.00. Jack, WA2DZS, CY 8-0594, Bronx, New York.

USED: Johnson Viking II, excellent condition \$200.00. Will ship anywhere in USA, PP. Knox Electronic Supply, 67 N. Cherry St., Galesburg, Illinois.

\$1.19 per watt HB xmtr 800 watts, AM-CW all band 4 separate power supplies. Good VFO Final-pair 813's Modulator-pair 811A's. Separate supply for buffer-driver stages. Good shape \$150. Shipping extra. We're going SSB. Write WA2KDW, Joseph Gontogenis, 207 Dykman Street, New York 40, N. Y.

3-400Z, 3-1000Z [from page 58]

filament tap point for C_2 occurs near to the top (filament end) of the coil. Adjustment of the tap-point may not be required.

It may be somewhat easier from a mechanical point of view to substitute a pi-network input circuit for the parallel LC circuit, as shown in fig. 3. Untuned filament chokes are used to supply filament voltage to the tube, and a simple fixed tuned pi-network circuit is employed to couple the exciter to the filament circuit of the 3-1000Z. The transformation ratio of the network is 1:1, matching the line to the tube, yet providing the Q necessary for proper circuit operation. The pi-network circuit and filament choke may be used for the 3-400Z tube, if desired. ■

EASY TO LEARN CODE

It is easy and pleasant to learn or increase speed the modern way—with an Instructograph Code Teacher. Excellent for the beginner or advanced student. A quick, practical and dependable method. Available tapes from beginner's alphabet to typical messages on all subjects. Speed range 5 to 40 WPM. Always ready, no QRM, beats having someone send to you.

ENDORSED BY THOUSANDS!

The Instructograph Code Teacher literally takes the place of an operator-instructor and enables anyone to learn and master code without further assistance. Thousands of successful operators have "acquired the code" with the Instructograph System. Write today for full particulars and convenient rental plans.

INSTRUCTOGRAPH COMPANY
4711 SHERIDAN RD., CHICAGO 40, ILL.
4700 Crenshaw Blvd., Los Angeles 43, Calif.
